## Amcor Australia chooses Smartpads—Again!

**Smartstak, working with Palltec Ltd, have again supplied Amcor with pads for both New Zealand and Australian markets.**

Pads supplied for the New Zealand market are the standard UK sized 1000mm x 1200mm x 2.6mm but with added UV stabiliser.

Pads supplied for the Australian market again have UV stabiliser added but are 1090mm x 1420mm x 3.0mm.

All pads are manufactured by Loadhog Ltd, as have the tightest tolerance in the industry. Normally pads are supplied with a tolerance of -0mm / +5mm, Loadhog have maintained the tight tolerances even on the larger sized pad to -0mm / +2mm.

Pads are currently been manufactured and with the first deliveries already loaded into container for shipment, however, production will continue for the remainder of the year.
